Catch The K(Kellogg's) at Accel Frontline Ltd November 2014 - October 2015

http://www.inflexiontech.com/

IOS Development using Objective C

- 'Catch the K' APP is a promotional APP for Kellogg's. The game is to catch the 3K's within a minute by scanning the QR code present in the stall. The challenge in the game is that there are numerous QRs in stall in which only 8 Are valid and if the user scan the valid QR a 'K' appears on the screen , user should move the hair cross pin on the appeared 'K' and catch it. This has to be performed to catch 3k's. once the valid QR is scanned and K is caught, If user tries to read the same QR again the K will not appear.
- Integrated the ZBAR SDK to scan the QR codes
- Implemented the logic to catch the correct QR code and make the 'K' float on the screen

Ken & Smith Ipad APP at Accel Frontline Ltd November 2014 - October 2015

http://www.inflexiontech.com/

IOS Development using Objective C

- IOS Development using Objective C
